Les indicatifs commençant par une lettre comme R3QP sont attribués aux vétérants de la dernière guerre, Ne pas confondre toutefois avec les indicatifs commençant par R1AN qui sont attribués aux Bases russes en Antarctique. Sont attribués également des indicatifs commençant par R0 qui sont les missions au-delà de 80° de latitude nord sur la banquise en Arctique comme par exemple R0POL qui accompagnait la mission de Jean-Louis Etienne début 2002. Les indicatifs commençant par RN sont souvent des indicatifs provisoires.
