Entity name change in DXCC

There is an administrative change concerning ZL9, this will be changed from Auckland and Campbell to New Zealand Sub Antarctic Islands. This does not include the Snares or any islands claimed by New Zealand south of 60 degrees south latitude.

Specifically, the Antipodes of New Zealand and the Bounty Islands will count for ZL9, New Zealand Sub Antarctic Islands entity.

Based on discussions with the DXCC Management, we have been informed that in view of the landing and operation permit issued to our group, they will include Antipodes Is. in ZL9, and re-name this entity 'New Zealand Sub-Antarctic Islands'. Their announcement will follow shortly. Club Log Most Wanted DXCC listing ranks ZL9 as #37 at Mixt and SSB. Consequently, besides the possibility to log **OC-286** for a new IOTA group, which is and will remain the main purpose of this operation, we will give many a chance to log their first contact with ZL9, or perhaps add a few bands to their DXCC Challenge. The cost of this operation will exceed \$50,000, and the team is looking for financial support from groups and individuals who can help us offset some expenses. Donations are welcome via paypal to ve3lyc@hotmail.com. More information about this project will be available on the expedition website, which is under construction and should be ready shortly.
